
Product Summary

Details of Product Provider

Manulife (Singapore) Pte. Ltd. (we, our, us) (registration number 198002116D) is the product provider and underwriter for this policy. This policy is distributed through our representatives or appointed distributors only. You may contact us for claims under this policy. Contact details: 8 Cross Street #15-01, Manulife Tower, Singapore 048424 Tel: 67371221, Website: www.manulife.com.sg.

Product Description

RetireReady Plus (III) is a single-premium participating endowment plan that provides retirement income benefit. This plan is designed to help you plan for your retirement and provides you with the following choices:

- i. Choose your desired retirement age of 50, 55, 60, 65 or 70;
- ii. Choose your desired guaranteed monthly income amount (GMI); and
- iii. Choose your desired income payout period of 10, 15, 20 years or lifetime of the life insured.

Should your retirement needs change after the policy is in force, you have the flexibility to change your income payout period.

The life insured will be covered for death and terminal illness. This plan also pays out an additional guaranteed monthly income during the income payout period if the life insured experiences a loss of independence (LOI).

This plan allows you to take part in the performance of the participating fund, in the form of bonuses that are not guaranteed. To find out more about participating policies, you may refer to the industry guide on participating policies which is available on our website or you can ask your financial adviser representative for a copy. The guide is also on the Life Insurance Association website at www.lia.org.sg.

Note:

"You" / "your" relates to the policy owner. For a single-life policy, the life insured will also be the policy owner.

Product Benefits

1. Retirement income benefit (RIB)

We will pay you a retirement income on a monthly basis as shown below, starting one month after the policy anniversary immediately after the life insured reaches his/her selected retirement age:

- i) The guaranteed monthly income, GMI;
- ii) Any non-guaranteed cash bonus; and less any amount you owe us.

We will pay this benefit throughout the chosen income payout period or until the policy is terminated, whichever is earlier.

You can choose to have the following option:

- a. Receive the RIB; or
- b. Accumulate the RIB with us at a non-guaranteed interest rate of 3% per annum (at an illustrated investment rate of return of 4.25% per annum) or 1.5% per annum (at an illustrated investment rate of return of 3.00% per annum). We set the interest rate and it may change. We will give you 30 days' notice before changing the interest rate. You can fully or partially withdraw the retirement income which has built up with us, with interest, at any time. The minimum amount for a withdrawal is S\$500 or the balance available, whichever is lower.

If you do not choose any option, we will automatically pay you the RIB.

2. Flexibility to change the income payout period

You have the flexibility to request to change your selected income payout period to a longer or shorter income payout period. The request must be submitted to us after the policy effective date and 2 years before the selected retirement age.

Once you have made the change to the income payout period, the following applies:

- i) The selected GMI will be revised;
- ii) The cash bonus rate will be based on the revised GMI; and
- iii) The loss of independence (LOI) income benefit (if any) will be based on the revised GMI. The period which the LOI income benefit can be payable shall follow the revised income payout period.

The request is subject to our approval and conditions that may change from time to time.

3. Loss of independence (LOI) income benefit

At any time during the selected income payout period, we will pay an additional income, depending on the severity of the LOI experienced by the life insured as per the LOI definition below. This benefit is payable from the next RIB payment date, after the end of the deferment period. Deferment period refers to the 90-day period from the claim date (inclusive of the claim date).

Definition of LOI

- (a) If the life insured is not able to perform any 2 of the 6 activities of daily living even with the aid of special equipment and always require the physical assistance of another person throughout the entire activity, the LOI income benefit is equivalent to 50% of the GMI (capped at a maximum LOI income benefit of S\$2,000 per month per policy); or
- (b) If the life insured is not able to perform at least 3 of the 6 activities of daily living even with the aid of special equipment and always require the physical assistance of another person throughout the entire activity or is diagnosed with any of the listed disability illnesses as below, the LOI income benefit is equivalent to 100% of the GMI (capped at a maximum LOI income benefit of S\$4,000 per month per policy).

Activities of daily living (ADL):

- (i) Transferring : The ability to move from a bed to an upright chair or wheelchair and vice versa.
- (ii) Mobility : The ability to move indoors from room to room on level surfaces.
- (iii) Toileting : The ability to use the lavatory or otherwise manage bowel and bladder functions so as to maintain a satisfactory level of personal hygiene.
- (iv) Dressing : The ability to put on, take off, secure and unfasten all garments and as appropriate, any braces, artificial limbs or surgical appliances.
- (v) Washing : The ability to wash in the bath or shower (including getting into and out of the bath or shower) or to wash satisfactorily by any other means.
- (vi) Feeding : The ability to feed oneself once food has been prepared and made available.

Disability Illnesses:

- (i) Irreversible Loss of Speech : Total and irreversible loss of the ability to speak as a result of injury or disease to the vocal cords. The inability to speak must be established for a continuous period of twelve (12) months. This diagnosis must be supported by medical evidence furnished by an Ear, Nose, Throat (ENT) specialist.

All psychiatric related causes are excluded.
- (ii) Deafness (Irreversible Loss of Hearing) : Total and irreversible loss of hearing in both ears as a result of illness or accident. This diagnosis must be supported by audiometric and sound threshold tests provided and certified by an Ear, Nose, Throat (ENT) specialist.

Total means “the loss of at least 80 decibels in all frequencies of hearing”.

Irreversible means “cannot be reasonably restored to at least 40 decibels by medical treatment, hearing aid and/or surgical procedures consistent with the current standard of the medical services available in Singapore after a period of 6 months from the date of intervention”.

(iii) Major Head Trauma : Accidental head injury resulting in permanent neurological deficit with persisting clinical symptoms to be assessed no sooner than 6 weeks from the date of the accident. This diagnosis must be confirmed by a consultant neurologist and supported by relevant findings on Magnetic Resonance Imaging, Computerised Tomography, or other reliable imaging techniques.

"Accident" means an event of violent, unexpected, external, involuntary and visible nature which is independent of any other cause and is the sole cause of the head injury.

The following are excluded:

- Spinal cord injury; and
- Head injury due to any other causes.

Permanent means expected to last throughout the lifetime of the life insured. Permanent neurological deficit with persisting clinical symptoms means symptoms of dysfunction in the nervous system that are present on clinical examination and expected to last throughout the lifetime of the life insured. Symptoms that are covered include numbness, paralysis, localized weakness, dysarthria (difficulty with speech), aphasia (inability to speak), dysphagia (difficulty swallowing), visual impairment, difficulty in walking, lack of coordination, tremor, seizures, dementia, delirium and coma.

The diagnosis must be confirmed and certified by a medical examiner.

In the event that the life insured's LOI severity advances from (a) to (b), the payment of LOI income benefit will be based on the higher of these two, which is as per described in paragraph (b) under the Definition of LOI.

In the event that the life insured's LOI severity improves from (b) to (a), the payment of LOI income benefit will be based on the lower of these two, which is as per described in paragraph (a) under the Definition of LOI.

We will pay the LOI income benefit together with the RIB as long as the life insured's LOI severity meets the LOI definition described in paragraph (a) or (b). You cannot accumulate the LOI income benefit with us.

This benefit ends immediately on the date the life insured is no longer in the state of LOI under the Definition of LOI or date of death of the life insured or upon policy maturity. If the life insured has recovered but subsequently meets the definition of LOI, the life insured is entitled to payment of this benefit again.

If you made a change to the income payout period, the LOI income benefit will be payable based on the revised GMI.

4. Retrenchment payout benefit

If the life insured is retrenched and remains unemployed for a minimum period of 30 consecutive days from the date of retrenchment, during the first 5 policy years or up to the policy anniversary immediately after the life insured's 65th birthday, whichever earlier, we will pay you an amount equivalent to 12.5% of the single premium paid in 1 lump sum.

You must submit the request to us using our prescribed form within 6 months from the date of retrenchment.

This benefit is applicable once per policy during the policy term and this benefit will be terminated after we have paid the retrenchment payout benefit.

Upon policy assignment to a corporation, this benefit will be terminated.

This benefit is written on the non-participating fund so it will not benefit from the performance of the participating fund.

Please refer to the policy contract for the definition of retrenchment and more information.

Note:

Not applicable to corporate owned policies and new policies for life insureds aged 65 years old.

5. Terminal illness (TI) benefit

If the life insured is diagnosed with a terminal illness during the policy term while the policy is still in force, we will pay the TI benefit as an acceleration of the death benefit in a lump sum. TI is defined as an illness which, in the opinion of a medical examiner and with the agreement of our appointed medical examiner, is likely to lead to death within 12 months from the date of diagnosis.

Limits of compensation

The most we will pay for this policy and all other policies we have issued covering the same life insured for any TI benefit and critical illness (CI) benefit is S\$2,000,000 (TI/CI limit), of which TI benefit cannot be more than S\$1,000,000 (TI limit). When we make payment for TI benefit, we will reduce the TI/CI limit by the amount we have paid. This policy will remain in force for death benefit if we have not paid the full sum insured following the TI claim. We will reduce the guaranteed monthly income after we have paid the TI claim and you are not allowed to change the income payout period thereafter. Please see the policy contract for details.

6. Death benefit

If the life insured dies before the income payout period and the policy is in force

We will pay the following after taking off any amount you owe us:

- (i) The higher of
 - (a) 105% of single premium paid; or
 - (b) the guaranteed surrender value; and
- (ii) Any claim bonus.

If the life insured dies during the income payout period and the policy is in force

We will pay the following after taking off any amount you owe us:

- a) The higher of
 - (a) 105% of single premium paid less the total GMI declared;
 - (b) the guaranteed surrender value; or
 - (c) 12 times of the GMI; and
- b) Any claim bonus and any accumulated RIB which has built up with interest (if not previously withdrawn).

Upon payment of the death benefit, this policy will end.

7. Maturity benefit

If the life insured is alive on the maturity date and the policy is in force, you will receive the following after taking off any amount you owe us:

- (a) the last GMI;
- (b) the last cash bonus; and
- (b) any accumulated RIB which has built up with interest (if not previously withdrawn).

Upon payment of the maturity benefit, this policy will end.

Bonus Features

The benefits shown in the policy illustration are based on the following illustrated investment rate of return.

As the bonus rates used for the policy illustration are not guaranteed, the actual benefit we pay may vary according to the future performance of the participating fund that this policy is invested in. We will decide the level of bonus to be declared each year (if any) as approved by our board of directors, taking into account the written recommendation by our appointed actuary.

1. Cash bonus

We may declare a cash bonus rate every year starting from the policy anniversary immediately before the life insured's selected retirement age.

We will use the cash bonus rate to decide on the cash bonus amount that we will pay to you monthly as part of the RIB. The cash bonus rate is not guaranteed. Once declared and vested, the cash bonus rate will be guaranteed for the particular policy year.

The cash bonus rate is a percentage of the GMI and it depends on the life insured's age when we issue the policy, gender, selected retirement age, premium payment term and income payout period. Please see Appendix A for the Cash Bonus Rate Table.

In comparison, at an illustrated investment rate of return of 3.00% per annum, the cash bonus rates are expected to be adjusted downwards depending on the future outlook of the participating fund.

Please refer to the policy illustration for the bonus amount at the illustrated investment rate of return of 3.00% per annum and 4.25% per annum respectively. The two rates are used purely for illustrative purposes and do not represent upper and lower limits of the investment performance of the participating fund.

2. Surrender bonus

We may declare a non-guaranteed surrender bonus. The bonus is available after your single premium has been paid and payable when you surrender this policy. It is expressed as a percentage of GMI.

3. Claim bonus

We may declare a non-guaranteed claim bonus. This bonus is payable when you make a TI or death claim on this policy. It is expressed as a percentage of GMI.

Main Product Conditions

The following are some of the conditions in the policy contract. This is only a brief summary and you should read the actual terms and conditions in the policy contract. Please consult your financial adviser representative if you need more explanation.

1. Paying premium

You pay the premium as a single payment.

2. Free look

You may cancel this policy by writing to us within 14 days after you receive this policy. If you decide to cancel your policy during this period, we will refund your premiums, without interest and less any medical or other expenses, to you. If we send this policy to you by post or email, we will consider it to have been delivered and received by you 7 days after the date of posting or email sent.

3. Surrender benefit

If the policy is in force, you will receive the following after taking off any amount you owe us, when you surrender your policy:

- (a) The guaranteed surrender value;
- (b) Any accumulated RIB which has built up with interest (if not previously withdrawn); and
- (c) Any surrender bonus.

4. Ending the policy
This policy will end:
- (a) when we receive your request in writing to end this policy;
 - (b) on the benefit end date shown on the schedule page or endorsement;
 - (c) Upon payment of the maturity benefit;
 - (d) when it lapses;
 - (e) upon the full acceleration of the death benefit due to TI claim; or
 - (f) when the life insured dies,
- whichever happens first.
5. Waiting Period
You will only be eligible for the retrenchment payout benefit:
- a) after 90 days from the policy issue date or the date of reinstatement, whichever is later; and
 - b) if the life insured remains unemployed for a minimum period of 30 consecutive days from the date of retrenchment as mentioned on the retrenchment letter issued by the life insured's employer.
6. General exclusions
There are certain conditions which no benefits will be payable under this policy as listed below. Please refer to the policy contract for the full details of the exclusions.

Death Benefit

If the life insured commits suicide within one year from the policy issue date or the most recent date of reinstatement of this policy, we will not pay the death benefit and will refund all premiums paid without interest and less any medical or other expenses we had to pay in connection with this policy.

Terminal Illness (TI) benefit

We will not pay the TI benefit if the terminal illness is caused by human immunodeficiency virus (HIV) infection.

LOI income benefit

The LOI income benefit will not include any disability or condition caused by:

- (a) any self-inflicted injury or attempted suicide, while sane or insane;
- (b) the life insured being under the influence of any narcotic, alcohol, gas or fumes, voluntarily taken, administered, absorbed or inhaled or drugs not prescribed by a medical examiner;
- (c) war or any act related to war, or service in the armed forces or civil defense force supporting any country at war except for peacetime national service duties;
- (d) riot, insurrection, civil commotion, strikes or terrorist activities, unless the life insured is a victim;
- (e) injuries suffered while travelling on any aircraft, except
 - (i) as a fare-paying passenger or a crew member (including the pilot) on an aircraft licensed for passenger service and operated by a regular airline on a scheduled route, or
 - (ii) operated by the Republic of Singapore Air Force; or
- (f) any pre-existing condition, where pre-existing condition means any illness or condition which existed before the policy issue date or the most recent date of reinstatement of this policy, whichever is the latest, and for which:
 - (i) presented signs or symptoms which you or the life insured was aware of or should have been aware of, and where the life insured should have sought medical advice or treatment; or
 - (ii) treatment, test or investigation was recommended by or received from a medical examiner; or
 - (iii) the life insured has arranged or received medical consultation, test or investigation.

Retrenchment payout benefit

The retrenchment benefit will not be payable if:

- (a) you or the life insured is, before the policy issue date, aware of the retrenchment;
- (b) the life insured is self-employed, or is an independent contractor or sole proprietor at the date of retrenchment;
- (c) the employer is the life insured's spouse, or relative of the life insured;
- (d) the life insured, relative of the life insured, (a) hold a substantial interest in; or (b) are in a position to exercise control over the appointment and termination of employees in the company,

- corporation, limited liability partnership, society, association or partnership (or such other similar body whether incorporated or unincorporated) which employs the life insured;
- (e) the retrenchment arises out of the life insured's:
- (i) retirement;
 - (ii) resignation;
 - (iii) termination or suspension due to willful or deliberate misconduct or unlawful behavior;
 - (iv) natural expiry of the employment contract;
 - (v) leave of absence whether paid or unpaid;
 - (vi) military discharge;
 - (vii) any voluntary forfeiture of income by the life insured; or
- (f) the life insured suffers from retrenchment from a full-time employment which the life insured has not worked for at least 6 consecutive months immediately prior to the retrenchment.

“Relative” means parent, sibling, uncle, aunt, nephew, niece, grandparent, child and grandchild.

“Substantial interest” means owning 5% or more of the equity interest in a body corporate.

Impact of Early Surrender

1. As buying a life insurance policy is a long-term commitment, an early termination of the policy usually involves high costs and the surrender value, if any, that is payable to you may be zero or less than the total premiums paid. Please see the policy illustration for the loss or low returns you may suffer if you surrender the policy early.
2. For this product, the surrender value is only available after the policy issue date.

Investment of Assets

1. The investment strategy aims to make the most of the long-term returns needed to meet all expected benefits of the participating fund. The aim is to maintain the solvency of the fund at all times and meet the guaranteed benefits, as well as reinforce our strength and ability to take advantage of new opportunities.

The strategic asset allocation for the participating fund that this product is invested in is as follows:

	Strategic Asset Allocation		
Asset Class	Target	Minimum	Maximum
Fixed Income	70.0%	64.0%	76.0%
Public Equity	25.0%	24.0%	36.0%
Private Equity	2.5%		
Real Estate	2.5%		

The targets and ranges for each of the classes of asset may change in future.

2. Fixed income includes both government and corporate bonds, and is aimed at meeting the bulk of guaranteed liabilities. Equities and real estate provide potentially higher returns to provide for the non-guaranteed bonuses in participating policies. The fixed income portfolio includes cash and money-market instruments.
3. While Manulife (Singapore) Pte. Ltd. partly manages the assets of the participating fund, the following fund managers have been appointed to manage the assets.
 - (i) Manulife Investment Management (Singapore) Pte. Ltd. whose address is 8 Cross Street #16-01, Manulife Tower, Singapore 048424.
 - (ii) Manulife Investment Management Private Markets (US), LLC whose address is 197 Clarendon Street, C-2, Boston, Massachusetts 02116.
 - (iii) Manulife General Account Investments (Singapore) Pte. Ltd. whose address is 8 Cross Street #16-02, Manulife Tower, Singapore 048424.

4. Investment Rate of Return

For our participating fund, the historical investment rate of return (after deducting investment expenses) is shown in the table below.

	2018	2019	2020	Average over the last 3 years	Average over the last 5 years	Average over the last 10 years
Investment Returns	NA	NA	NA	NA	NA	NA

Please note that historical performance may not be indicative of future performance.

Total Expense Ratio

The total expense ratio is the proportion of total expenses incurred by the participating fund to the assets of the participating fund. These expenses include costs such as investment, management, distribution, taxation and other expenses.

An expected level of expenses to be incurred by the participating fund has been allowed for in the premiums payable for your policy and is not an additional cost to you. If the actual level of expenses varies significantly from the expected level of expenses, it may affect the non-guaranteed benefits you may receive.

For our participating fund, the historical total expense ratios are shown in the table below.

	2018	2019	2020	Average over the last 3 years	Average over the last 5 years	Average over the last 10 years
Total Expense Ratio	4.88%	4.74%	3.67%	4.31%	4.45%	3.69%

Please note that historical expense ratios may not be indicative of future expense ratios.

Total Expense Ratio refers to the total expenses incurred by our total participating fund as a whole and is not specific to any participating sub-fund.

We work out the investment return and total expense ratios using the following.

Investment return	$\frac{2 \times \text{total net investment income (including realized or unrealized capital gain or loss)}}{(\text{market value of asset at start of year} + \text{market value of asset at end of year} - \text{total net investment income})}$
Total expense ratio	$\frac{2 \times \text{total expense}}{(\text{market value of asset at start of year} + \text{market value of asset at end of year})}$

Note

This investment return reflects the investment performance of the participating fund alone. It does not reflect the actual return you will receive. Past performance is not necessarily a guide to future performance. The actual return you will receive depends on the actual bonus we declare. The capital gain is the increase in value of an asset from the purchase price. The gain is not 'realized' until the asset is sold. An unrealized gain is when the price of the asset rises above the purchase price but the asset is held and not sold.

Risks Affecting the Level of Bonuses

1. The types of risk affecting the participating fund performance are:
 - Investment
 - Expense
 - Mortality (rates of death)
 - Longevity
 - Other morbidity risks (e.g. risks related to terminal illness, critical illness, disability, loss of independence)
 - Persistency
 - Business risks:
 - i. providing guarantees to policyholders
 - ii. the critical illness riders in the fund
 - iii. changes in the population
 - iv. marketing practices
 - v. meeting policyholders' reasonable expectations
 - vi. regulatory changes

vii. catastrophic events and epidemic diseases

We will decide on the bonus taking into account the current performance and the future outlook of the participating fund.

2. For the purpose of spreading risk, we group participating policies by type of product (whole life, endowment, single premium, regular premium and rider). All the risks mentioned above are shared among the policies in the sub-fund.
3. We use a smoothing process when we allocate bonuses. During periods when the performance of the participating fund is above average, we will not distribute some assets as bonuses and we will set them aside as reserves for smoothing. During periods when the performance is below average, we use the reserves to support the bonus declared.
4. As this is a new product, we have not yet declared an actual bonus for this plan.
5. Past performance is not necessarily a guide to future performance.

Fees and Charges

1. The types of expenses we charge to the participating fund are:
 - commission and override commission paid to agents or intermediaries;
 - investment fees paid to the fund managers for providing management services of the participating fund;
 - marketing, sales and advertising fees in distributing participating policies;
 - administration fees in new business underwriting and policy renewals;
 - employee salaries and benefits;
 - overhead expenses such as office rental, utilities and equipment rental;
 - legal, audit, consultant and other types of regulatory fees;
 - servicing arrangement with intra-group parties (related companies);
 - tax; and
 - other expenses, such as loss in value, office supplies, and so on.
2. We have allowed for the expenses mentioned above when working out the premiums, so you will not be charged extra.

Contacting You

You can expect to receive the following documents from us to provide information about how your policy is doing.

- (a) Annual bonus statement – You can expect to receive this within one month from the policy anniversary.
- (b) Annual performance report of the participating fund – You can expect to receive this in June or July each year.

Conflict of Interest

There is no conflict of interest in relation to the participating fund and how it is managed.

Related Party Transactions

We have reinsurance arrangement with Manulife (International) Limited; and transactions with the following related parties for the management of our participating fund:

- (i) Manulife Investment Management (Singapore) Pte. Ltd.
- (ii) Manulife Investment Management Private Markets (US), LLC
- (iii) Manulife General Account Investments (Singapore) Pte. Ltd.

The above transactions are not expected to have any significant financial impact on the management of the participating fund. All transactions with the related parties are approved by relevant internal committee to ensure that transactions are done at arm's length.

Important Notes

This product summary is published for general information only and does not take into account the specific investment objectives, financial situation and the particular needs of any specific person. This is not a contract of insurance. You will find full details of the terms, conditions and exclusions of this policy in the policy contract. You will receive the policy contract after we accept your application.

This policy is protected under the Policy Owners' Protection Scheme which is administered by the Singapore Deposit Insurance Corporation (SDIC). Coverage for your policy is automatic and no further action is required from you. For more information on the types of benefits that are covered under the scheme as well as the limits of coverage, where applicable, please contact us or visit the LIA or SDIC websites (www.lia.org.sg or www.sdic.org.sg).
