1. Provider of the Plan

AIA Singapore Private Limited (Reg. No. 201106386R) ("we, our, us, AIA Singapore")
1 Robinson Road
AIA Tower
Singapore 048542

2. Nature & Objective of the Plan

AIA Platinum Wealth Legacy is an Investment-linked Plan (ILP) plan that is designed to provide you with life insurance coverage with a No Lapse Privilege and the opportunity for cash value accumulation.

Depending on your level of priority for protection, you can choose No Lapse Privilege Expiry Age of 85 or 100 when you purchase this plan.

This plan is available using cash only. You may choose to pay your premium in single pay or regular pay for 5 years.

3. Benefits Under the Plan

You will be entitled to the following benefits under the policy:

3.1. Death Benefit

Before the policy anniversary immediately following the Insured's 122nd birthday

We will pay the higher of the following:

- (i) Current Insured Amount; or
- (ii) the policy value

less applicable fees and charges (if any).

Remarks:

Current Insured Amount = Insured Amount less any Adjusted Partial Withdrawals (as described in Section 6.4) less any payment from Terminal Illness Benefit.

On or after the policy anniversary immediately following the Insured's 122nd birthday

We will pay the policy value less applicable fees and charges (if any).

3.2. Terminal Illness Benefit

In the event Insured is diagnosed with Terminal Illness, upon proof of Terminal Illness satisfactory to us, we will pay the death benefit, subject to the Terminal Illness per life limit of US\$ 2,000,000 (aggregated with other policies or riders issued by us on the same life). For policies issued in other currencies, a conversion rate as determined by us will apply.

"Terminal Illness" refers to the conclusive diagnosis of an illness that is expected to result in the death of the Insured within 12 months. This diagnosis must be supported by a specialist and confirmed by our appointed physician.

The Terminal Illness Benefit accelerates the payment of the death benefit under the basic policy.

3.3. No Lapse Privilege (NLP)

The actual Policy Value will depend on the actual performance of the policy as well as any alterations such as variation in the Insured Amount or premium, such as premium holiday or partial withdrawals. There is a possibility that the Policy Value will fall to zero and in this case, the policy will be terminated except when No Lapse Privilege is in effect.

The No Lapse Privilege is available up to the No Lapse Privilege Expiry Age chosen.

The Policy will not lapse in any given policy month, even if the Policy Value is insufficient to pay for all applicable monthly fees and charges, provided that all premiums for the basic policy are paid when they fall due.

We will continue to deduct the applicable fees and charges from the policy value until such time the policy value is zero. If the policy value becomes zero, all outstanding fees and charges shall continue to accrue and shall be payable by cancelling the appropriate number of Units at bid price from your policy on the relevant valuation day when there are units credited to your policy.

If any of the above criteria for the No Lapse Privilege is not satisfied, the No Lapse Privilege will terminate automatically and cannot be reinstated.

6. Policy Options and Flexibilities

6.1. Vary Insured Amount

You can enjoy the flexibility to vary your insured amount after your policy has been in force for at least one year from the Issue Date.

Increase in Insured Amount

The Insured Amount shown in your Policy Schedule is the first Layer under your Basic Policy. For each increase in the Insured Amount as approved by us, a new Layer is created. Each new layer can be either single pay or regular pay and will be subject to its own premium charge, administration charge, partial withdrawal/surrender charge and premium holiday charge calculated with reference to the effective date of that Layer and Life Assured's attained age.

We will require evidence of insurability satisfactory to us for any increase in the Insured Amount. An increase in Insured Amount is allowed provided that the Insured's class of rating (which includes, but not limited to, country of residence, gender, and smoker status) is the same risk classification as at the date of application for the first Layer.

The minimum increase in Insured Amount is \$10,000.

Reduction in Insured Amount

You may reduce the Insured Amount provided that the revised Insured Amount being not lesser than the Minimum Insured Amount as set by us. The Minimum Insured Amount is \$500,000.

No further reduction in the Insured Amount will be allowed if the Insured Amount has been reduced to less than the Minimum Insured Amount as a result of a claim for Terminal Illness Benefit.

You have the option to reduce the Insured Amount to any amount below the Minimum Insured Amount as set by us, provided that:

- (1) your Policy has been in force for at least 25 years from the Issue Date; or
- (2) on or after the Policy Anniversary following the Insured's 65th birthday; whichever is later.

The exercise of option above will result in No Lapse Privilege automatically terminate.

6.2. Top-Up Premium

Policyholder can avoid the policy lapsing by topping up additional premium. Top-ups can be either paid on an ad hoc basis or regularly. Top ups increase the Policy Value but they do not affect the Insured Amount and Current Insured Amount.

For regular pay option, you may request to pay additional top-up premium on an ad-hoc basis, provided all regular premiums are paid when they fall due (where applicable).

100% of top-up premium less premium charge will be used to purchase of units in ILP sub-fund at bid price. Premium charge is 3% of the top-up premium.

The following minimum premium amounts will apply.

Premium Type	Minimum Premium Amount
Top-Up Premiums	\$1,000

We reserve the right to revise the minimum top-up premium amount any time at our discretion. As an example, the number of units in an ILP sub-fund you will receive based on a **top-up premium amount** of \$1,000 and at a **notional bid price** of \$1.00:

(Top-up Premium Amount	-	Top-up Premium Charge)	÷	Bid Price	=	Number of Units
(\$1,000	-	3% x \$1,000)		÷	\$1.00	=	970

6.3. Full Surrender

You may surrender your policy at any time, for its surrender value, by writing to us.

The surrender value of your policy is the policy value less any partial withdrawal/surrender charge as set out in Policy Illustration.

The following example illustrates the amount of redemption proceeds that you will receive based on a redemption of 5,000 **regular premium units**, at a **notional bid price** of \$2.00 and a partial withdrawal/surrender charge of 50% in the first policy year and 45% in the second policy year:

	Number of Units to be	X Bid Price	= Gross Redemption Proceeds	- Surrender Charge	= Net Redemption Proceeds
First policy year	5,000 X	\$2.00	= \$10,000	less \$5,000 (50%)	= \$5,000
Second policy year	5,000 X	\$2.00	= \$10,000	less \$4,500 (45%)	= \$5,500

6.4. Partial Withdrawal

You may request for a partial withdrawal from your policy value at any time after your Policy has been in force for at least one year from the Issue Date. The minimum withdrawal amount is \$1,000 and the policy value after withdrawal must be at least \$10,000. We reserve the right to revise the minimum withdrawal amount and minimum policy value any time at our discretion.

The Current Insured Amount will be reduced by the Adjusted Partial Withdrawal. The Adjusted Partial Withdrawal shall be calculated as follows:

- (a) For partial withdrawal from the top-up policy value, the Adjusted Partial Withdrawal is zero;
- (b) For partial withdrawal from the policy value (excluding top-up policy value), the Adjusted Partial Withdrawal is insured amount from the respective Layer multiplied by Acceleration Percentage where
Acceleration Percentage = Partial withdrawal from the respective Layer divided by policy value (excluding top-up policy value) of respective Layer

No partial withdrawal will be allowed or the partial withdrawal will be restricted to such amount as notified by us if it will result in the Current Insured Amount being less than the Minimum Insured Amount.

We, the relevant Manager and the underlying fund manager will comply with applicable regulatory and industry standards on soft-dollars.

The soft-dollar commissions which we, the relevant Manager and underlying fund manager may receive include specific advice as to the advisability of dealing in, or the value of any investments, research and advisory services, economic and political analyses, portfolio analyses including valuation and performance measurements, market analyses, data and quotation services, computer hardware and software or any other information facilities to the extent that they are used to support the investment decision making process, the giving of advice, or the conduct of research or analysis, and custodial service in relation to the investments managed for clients.

8.7. Conflicts of Interest

Where we issue other investment-linked policies and where the relevant Manager manages funds other than the ILP sub-fund under the policy, we and the Managers may from time to time have to deal with competing or conflicting interests between the policy and such other investment-linked policies issued by us or between the relevant ILP sub-fund and such other funds managed by the Manager (as the case may be). For example, we or the Manager may make a decision on behalf of an investment-linked policy or one fund (as the case may be) without making the same decision on behalf of any other investment-linked policies or funds, as a decision whether or not to make the same decision in respect of the investment-linked policies and funds depends on many other factors, for example the investment or sale for any fund depends on factors such as the cash availability and portfolio balance of such funds. However, we and the Managers will use our reasonable endeavours at all times to act fairly in respect of all investment-linked policies issued by us and all funds managed by the relevant Manager and to balance the interests of the policy and the relevant ILP sub-fund thereunder.

We are currently the issuer of other investment-linked policies and the Managers manage other funds in addition to the relevant ILP sub-fund.

We will conduct all transactions with or for the policy and the Managers will conduct all transactions with or for the relevant ILP sub-fund on an arm's length basis.

We, or our affiliates or the relevant Manager and its affiliates (together the "parties") are or may be involved in other financial, investment and professional activities which may on occasion cause conflict of interest with the policy and the other investment-linked policies issued by us and the management of the relevant ILP sub-fund and the other funds managed by us. Each of the parties will ensure that the performance of their respective duties will not be impaired by any such involvement. In the event a conflict of interest does arise, the parties will endeavour to ensure that it is resolved as quickly as possible and as far as possible, in your interest or as otherwise as equitably as possible.

We and the Managers may own, hold, dispose or otherwise deal with units in the relevant ILP sub-fund in its own capacity. In the event of any conflict of interest arising as a result of such dealing, we and the Manager (as the case may be) will resolve such conflict in a just and equitable manner as we deem fit.

We and the Managers shall conduct all transactions with or for the ILP sub-fund at arm's length.

8.9. Tax Considerations

You should consult your own professional advisers as to the implications of buying, holding or disposing of units and to the provisions of the laws of the jurisdiction in which you are subject to tax.

8.10. ILP Sub-Fund Valuation

You may contact us or your AIA Financial Services Consultant or Insurance Representative or refer to the policy contract for details on the valuation of each ILP sub-fund.

9. Risk

Investment in the policy is meant to produce returns over the long-term. You should not purchase this policy with the aim of achieving short-term gains. The performance of the ILP sub-fund is not guaranteed and the value of the units in the ILP sub-fund and the income accruing to the units, if any, may fall or rise. This will affect the policy value which is not guaranteed. Past performance is not an indicator of future performance. You should realise that a possible loss of your premiums cannot be ruled out.

10. Important Notes:

- AIA Platinum Wealth Legacy is an investment-linked policy (ILP) offered by AIA Singapore, which invests in ILP sub-fund. Investments in this plan are subject to investment risks including the possible loss of the principal amount invested. The performance of the ILP sub-fund is not guaranteed and the value of the units in the ILP sub-fund and the income accruing to the units, if any, may fall or rise. Past performance is not necessarily indicative of the future performance of the ILP sub-fund. You should seek advice from an AIA Financial Services Consultant or Insurance Representative and read the product summary and product highlights sheet before deciding whether the product is suitable for you.
- This insurance plan is underwritten by AIA Singapore. All insurance applications are subject to our underwriting and acceptance. Submission of an application and payment of premium does not constitute and should not be construed as acceptance by us. We reserve the right to withdraw the plan or reject applications at any time or for any reason without notice.
- This product summary does not form a part of any contract of insurance. It is intended only to be a simplified description of the product features applicable to this plan and is not exhaustive. The contents of this product summary may vary from the terms of cover eventually issued. Please refer to the actual policy contract for all terms and conditions, including exclusions whereby the benefits under your policy may not be paid out. You are advised to read the policy contract. For the avoidance of doubt, only the terms and conditions as set out in the policy contract will bind the parties.
- As buying a life insurance policy is a long-term commitment, an early termination of the policy usually involves high costs and the surrender value, if any, that is payable to you may be zero or less than the total premiums paid. You should consider carefully before terminating the policy or switching to a new one as there may be disadvantages in doing so. The new policy may cost more or have fewer benefits at the same cost.
- The fees and charges except for administration charge and insurance risk charge set out herein are guaranteed. We reserve the right upon prior notification of not less than 1 month in writing to you, to vary the fees and charges set out in the policy, or to introduce new fees or charges and the manner in which such fees and charges may be imposed from time to time, up to, where applicable, the maximum limits stated.
- We reserve the right to terminate or suspend the partial withdrawal, automatic fund switch, and automatic fund rebalancing facilities at our discretion. We shall not be responsible for any losses whatsoever arising from or attributable to our decision to suspend or terminate these facilities.
- We will not be liable for any changes in the price of the units of the relevant ILP sub-fund from the time of receipt of your instructions to redeem or switch until the time of redemption or switch of the units, or for the failure or refusal of a ILP sub-fund or its manager to process the subscription and/or redemption of units (as the case may be).
